**RE: Advertising of Influenza Clinics Being Held by Physicians and Pharmacies**

The Manitoba Health, Seniors, and Active Living Seasonal Influenza Website ([www.Manitoba.ca/health/flu/index.html](http://www.Manitoba.ca/health/flu/index.html)) has a “Where can I get my flu vaccine?” tab where the public can go to see where a clinic is being held near them and when to get immunized against influenza. This information is also communicated to the public if they contact Health Links — Info Santé.

If any immunization provider is holding flu specific immunization clinics and would like to be added to the listing, please send the information identified below to [Vaccines@gov.mb.ca](mailto:Vaccines@gov.mb.ca):

- Location Name
- Location Address
- Clinic Date(s) and Times
- If there will be an ability to immunize under the age of 7 (i.e. pharmacies will be bringing in a nurse)
- If wheelchair accessible
- If appointments are required. If yes, provide phone number

**\*\*Only clinics offering flu immunizations will be added to the listing\*\***

**Reminder: The deadline to order influenza vaccines to ensure your order is shipped within the delivery schedule is 4:00 PM, September 13, 2019**

If you have any questions about Manitoba’s Immunization Program please contact us at [Vaccines@gov.mb.ca](mailto:Vaccines@gov.mb.ca)

Sincerely,
