

Vaccine Storage Safety !

Be sure vaccines protect.
Handle with care!

Vaccine Safety Tips

✓	Designate one person to be “in charge” of vaccine stock
✓	Refrigerate vaccines immediately upon arrival
✓	Store vaccines on the middle shelves of the fridge
✓	Never store vaccine in the door or the bottom (drawers) of the fridge
✓	Check vaccine expiry dates every month and rotate vaccine stock
✓	Order only what you will use in one month
