**RESOLUTIONS:**

Mr. CALDWELL – Wind Energy

5. WHEREAS promoting and facilitating the orderly development of energy resources, ensuring a reliable and low cost supply of energy to Manitobans and promoting conservation and clean and efficient energy use in accordance with the governments commitment to address climate change and the Kyoto protocol have been and are the objectives of the Province of Manitoba; and

WHEREAS the investment in the diversification of energy production ensures the strength of the Manitoba economy; and

WHEREAS wind energy is an important part of this program of diversification as it complements the already existing hydroelectric energy production in Manitoba; and

WHEREAS the production of wind energy is a clean, renewable and affordable energy source which is uniquely suited to certain rural regions of Manitoba and was up until 2001 an underutilized source of energy; and

WHEREAS the development of this new resource will require new technologies, products and services and would have beneficial consequences for Manitoba companies and would provide new high-technology jobs as well as an additional and stable source of revenue for rural farmers, landholders and municipalities; and

WHEREAS the first windfarm has already been established in St. Leon, Manitoba through partnerships with all levels of government and the private sector, a site established to be a world-class wind regime centre, which will ensure its commercial viability; and

WHEREAS the first turbines have already been built and tested in St. Leon and have provided an important example of the feasibility of wind energy for Manitoba;

WHEREAS upon completion the St. Leon windfarm will be one of the largest in Canada producing 99 megawatts of energy a year; and

WHEREAS the St. Leon windfarm is one example of several programs and services designed to help rural and northern Manitobans reach their economic potential by building on traditional strengths and focusing on new opportunities.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to consider continuing supporting the wind farm at St. Leon and other such rural economic development initiatives that are in accordance with the principles of sustainable development; and

BE IT FURTHER RESOLVED that this Assembly urge the Provincial Government to consider continuing to develop wind energy with the goal of attaining 1,000 megawatts of production over the next ten years.
