NOTICE OF MOTION FOR THE NEXT TUESDAY OF PRIVATE MEMBERS' BUSINESS:

PROPOSED RESOLUTION:

Mr. MARTIN – Recognizing Climate Resiliency and Green Strategies in Manitoba Transportation

9. WHEREAS it is essential for the province to move to a more sustainable transportation system; and

WHEREAS changes must be made to reduce the carbon footprint of Manitoba; and

WHEREAS shared streets are an integral part of the plan when exploring options that lessen dependence on fossil fuels, and

WHEREAS municipalities within the province had utilized these shared streets during the pandemic enabling many people to take advantage of these new options for active transportation which allowed them to feel safer using roads that were moved back to a shared space; and

WHEREAS any improvement to pedestrian, cyclist, or active transportation methods help provide more options for Manitobans to make a carbon reducing choice easier; and

WHEREAS the rising cost and impact of fossil fuels are causing many Manitobans to reconsider their personal transportation options to reduce their impact; and

WHEREAS improving access and expanding the options for reduced emission transportation is a concrete step to reducing the environmental impact of this province.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba commend the Provincial Government for introducing legislation that will allow for the testing of reduced emission transportation and better shared paths for active transportation in order to improve the climate resiliency of Manitoba.
