

2024 SPRING SUPPLEMENT HUNTING GUIDE

MINISTER'S MESSAGE

As Minister of Economic Development, Investment, Trade and Natural Resources, I am honoured to share the 2024 Spring Supplement of the Manitoba Hunting Guide with you.

Manitoba is home to natural resources that are unique across the world, especially wildlife. These resources are enjoyed by hunters of all ages from both Manitoba and abroad. Hunting in our province has always been an integral part of Manitoba's rich heritage and cultural fabric, in addition to being a provincial economic driver.

This publication provides valuable information and reminders for all hunters to ensure a safe and successful hunting experience for the upcoming year.

Thank you for the important role you play in the stewardship and long-term sustainability of our valued natural resources. I look forward to working with you to ensure the tradition of hunting continues to thrive for future generations.

Wishing you a safe and enjoyable spring hunting season!

SPRING CONSERVATION GOOSE HUNTING SEASONS AND BAG LIMITS

The giant Canada goose population in southern Manitoba has been growing substantially since 1990. The breeding population was estimated at a peak of 234,600 in 2019, the highest recorded since 1955. Environment and Climate Change Canada declared the breeding population of Canada geese in southern Manitoba (GBHZ 3 & 4) as overabundant. This declaration has enabled Manitoba to implement a Spring Conservation Canada Goose Season. Hunting is considered the most efficient means to reduce the population size of an overabundant population.

To participate in these seasons, hunters require the previous year's (2023) Canada Migratory Game Bird Hunting Permit and Wildlife Habitat Conservation Stamp licences which are available online at www.permits-permits.ec.gc.ca and a Manitoba no charge 2024 Spring Conservation Goose Licence also available online at www.manitobaelicensing.ca.

SPRING CONSERVATION GOOSE HUNTING SEASONS
