Mr. C. A. Nesbitt,
 Secretary-Treasurer,
 The Town of Thompson,
 P.O. Box 730,
 THOMPSON, Manitoba.

Dear Sir:

Re: Ordinary Licence -
The Town of Thompson - New Sub-division

This licence is issued pursuant to The Clean Environment Act permitting the Town of Thompson to discharge effluent from a multiple-cell aerated lagoon system into a drainage ditch and thence via Thompson Lake drainage system into the waters of the Burntwood River, as proposed (a) to service the new sub-division sewerage system, and (b) to accept part of the sewage flow from the existing townsite, subject to the following conditions:

1. the Town of Thompson shall provide treatment of the sewage to effect a minimum of eighty percent removal of the biochemical oxygen demand, and
2. the Town of Thompson shall chlorinate the lagoon effluent on a continuous basis to provide a residual of 0.5 milligrams per litre of chlorine (after fifteen minutes contact).

Yours very truly,

Peter Warner

Chairman,
 The Clean Environment Commission.
