June 10, 2015

Mr. Rodi Sveistrup
Koch Fertilizer Canada, ULC
1400-17th Street East
Brandon, MB R7A 7C4

Dear Mr. Sveistrup:

Re: Koch Fertilizer Canada, ULC (Koch) – Environment Act Licence No. 1535 RR – SuperU® Production - Notice of Alteration

Receipt of your June 4, 2015 submission is acknowledged as a notice of alteration in accordance with section 14 of *The Environment Act*.

The requested change to the Development as Licensed is for the continued production of the SuperU® stabilized nitrogen product at the facility. Approval for the production trial of the SuperU® stabilized nitrogen product was granted on May 23, 2013 and terminates on March 31, 2016.

The letter provided states that Koch's continued assessment of production has shown the manufacturing of the product does not result in any adverse environmental or health and safety effects. Specifically, Koch's assessment concludes that there are no adverse environmental effects associated with the handling or storage of the product and no increase in noise, dust or other nuisances. The letter also states that Koch will continue to operate in compliance with the limits, terms and conditions of Environment Act Licence No. 1535 RR.

The potential environmental effect of the requested change to the Development as Licensed is insignificant and considered to be a minor alteration in accordance with section 14(2) of *The Environment Act*. The request for the continued production of the SuperU® stabilized nitrogen product as described in the June 4, 2015 submission is hereby approved.

If you have any questions, please contact Jennifer Winsor, P.Eng. at 204-945-7012.

Yours sincerely,
