Dear Mariana Moreira:

Re: Darling International Canada Inc. – Notice of Alteration

Thank you for the notice of alteration submitted on January 6, 2020 in which you proposed the following alterations for the Rothsay operation at 607 Dawson Road in Winnipeg:

1. Replacement of three existing old storage tanks, two 70 MT each and one 140 MT capacity, with two 110 MT and one similar 140 MT capacity, respectively.
2. Conversion of the storage tank current two mechanical rooms to a central mechanical room.
3. Replacement of 2K CFM Venturi scrubber with a 6K CFM Venturi scrubber.

It is understood that the replacement of the existing old storage tanks is due to the age of the tanks and the increase in the storage capacity is to reduce loading frequency and to align with a 90 MT rail car loading capacity. The increased Venturi scrubber capacity is to improve exhaust air pretreatment before discharging the 30K packed bed scrubber.

Upon review of your alteration request, I have concluded that the environmental effects of the proposed alteration will be insignificant, and, therefore, in accordance with Section 14(2) of The Environment Act you are hereby authorized to carry out the proposed alteration as described in the January 6, 2020 Notice of Alteration.

If you have any questions on this matter, please contact Mr. Eshetu Beshada at (204) 945-7023.

Yours sincerely,

“Original signed by”
