Dear Ms. Braun:

**RE: Bipole III Transmission Project (Licence 3055) – Not Net Loss of Wetland Plan**

This letter serves to provide an update on the submission status for Manitoba Hydro's No Net Loss of Wetland Plan pursuant to clause 52 of the Bipole III *Environment Act* licence 3055. In a letter dated October 29, 2013, Manitoba Hydro anticipated submitting a Not Net Loss of Wetland Plan to Manitoba Conservation and Water Stewardship by May 2014. Manitoba Hydro is working diligently to complete this plan. However, due to more extensive efforts required than anticipated to inventory wetlands along the Bipole III Transmission Project route, this plan will not be submitted until July 31, 2014.

Manitoba Hydro trusts this revised timeline is acceptable to Manitoba Conservation and Water Stewardship. Should you have any questions or concerns with the revised submission date please do not hesitate to contact me.

Regards,
