Dear Oliver Kuo:

Re: Pfizer Global Supply Brandon – Notice of Alteration to Licence 3099

Thank you for the Notice of Alteration dated January 28, 2020 in which you proposed a carbon adsorption bed installation in your facility located at 720 17th Street East in Brandon, Manitoba. It is noted that the installation is an additional emission mitigation to further reduce volatile organic compound (VOC) emissions from the facility. It is understood that the reduction of VOCs will reduce the pollutants identified during the dispersion modeling and bring the facility into compliance.

Upon review of your alteration request, I have concluded that the environmental effects of the alteration will be insignificant, and, therefore, in accordance with Section 14(2) of The Environment Act your alteration is approved as described in the January 28, 2020 Notice of Alteration.

If you have any questions regarding this matter, please contact Kristy Forrestall, District Supervisor, at (204) 726-6974 or Kristy.Forrestall@gov.mb.ca.

Yours sincerely,
