Operating as:

Great Canadian Oil Change St. Mary's  
1109 St. Mary's Rd  
Winnipeg Mb  
R2M 3T6

Current Use:

Quick Lube automotive –Oil Change

Property Zoned:

C2

Storage Tanks:

This store has 3 waste oil tanks in the basement. Each can hold up to 2500 litres and they are single wall tanks.

Filter Storage:

We have an enclosed containment shed outside that contains our waste oil filters in metal drums. The drums are 45 gallon leak proof drums with locking lids. They are sitting on containment trays.

-Sketches attached

Handling Procedure:

The public will be directed to leave all their products with our employee, who will then dispose of items in the correct storage areas. Oil will be dumped into holding tanks, filters into metal drums and bottles into enviro bags.

Used Oil Pick up:

GFL pumps our used oil into their truck, collects our drums with used oil filters and removes our plastic enviro bags that contain all plastic oil bottle containers.

Length of storage:

GFL picks up our used oil and oil filters every two weeks.

Hours of Operation:

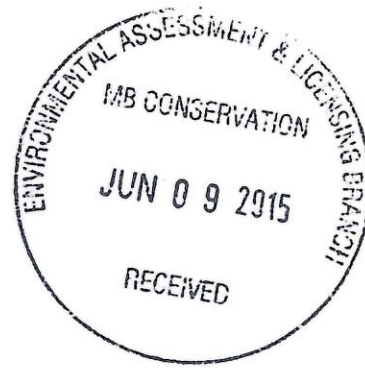

Monday to Friday 8AM to 8PM

Saturday 8AM to 6PM

Advertise:

We will advertise on our website, through social media and all print. MARRC will also include us on all their advertising.

Prevent Oil Spills:

Any small spill will be quickly covered with our absorbent product and cleaned up into a container for GFL to dispose of. In the event of a large spill or leak, our staff will contact the owners and GFL immediately. They will contain spill with our oil spills kits until GFL arrives on site.

**Fire Safety Plan:**

In the case of a fire, staff will contact the fire Department, use our extinguishers to put out small fire, contact owners, GFL and ensure all staff and customers evacuate the store.

**Permit:**

We hold Provincial Hazardous Waste Registration ID #MBG10631.

**Volumes:**

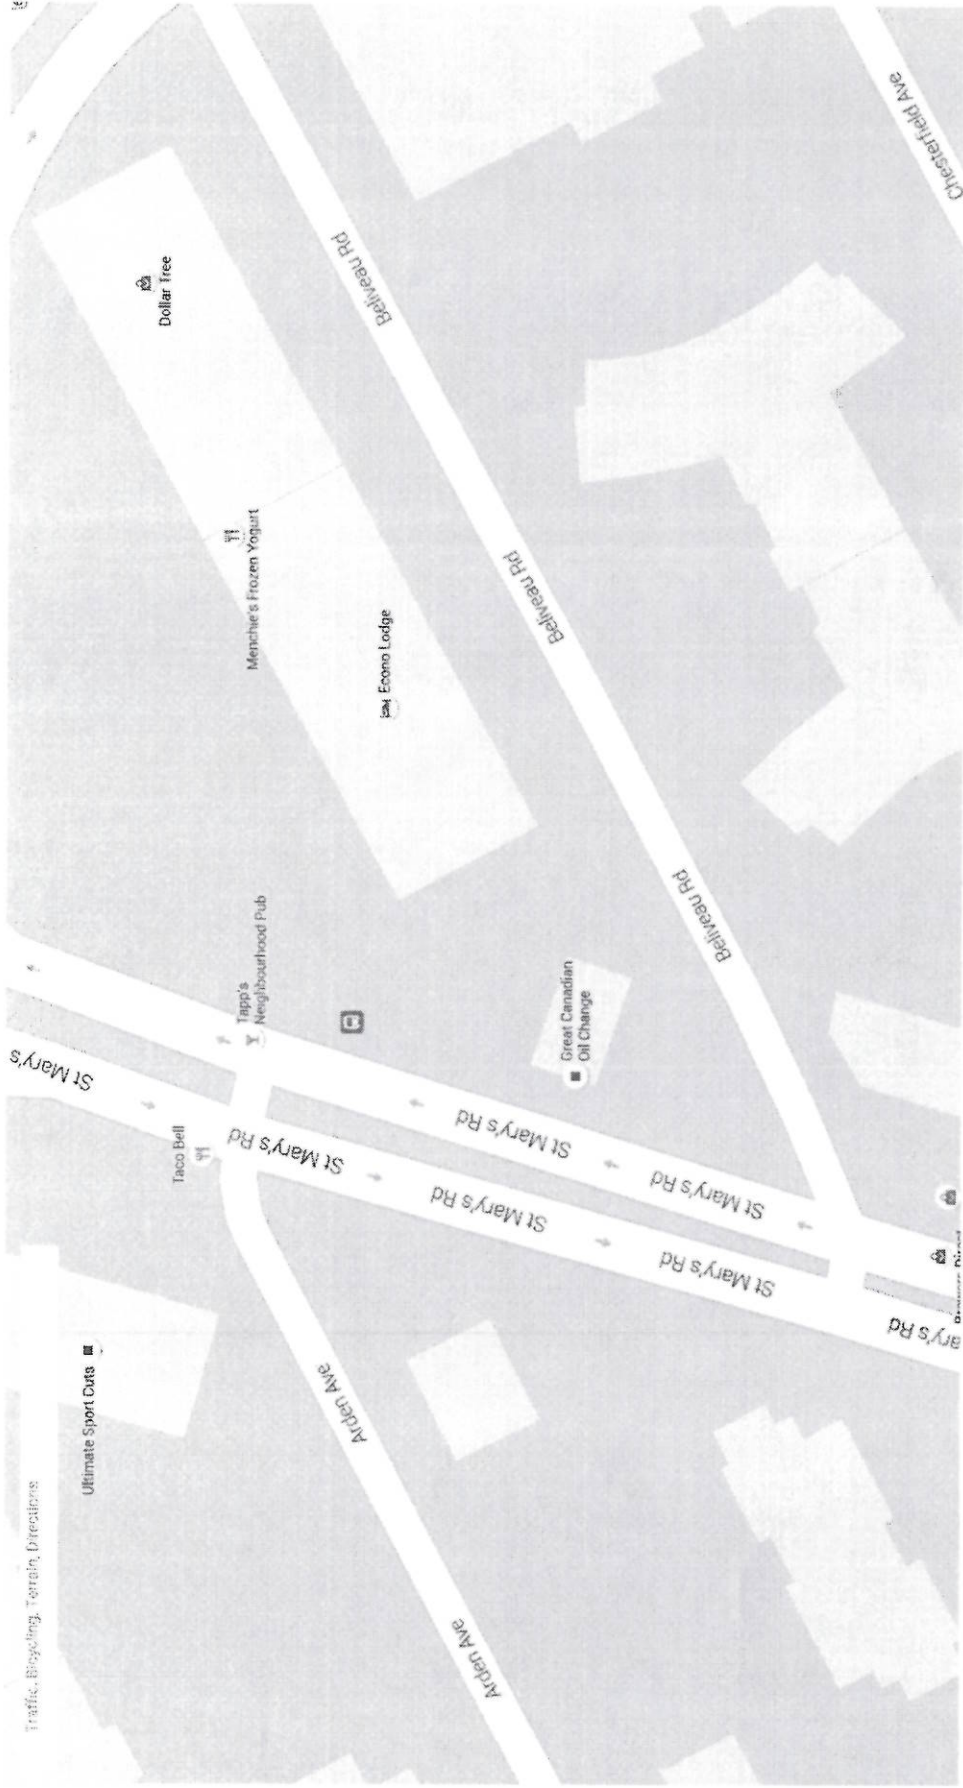

The below volumes are estimates for the public drop off portion and our store volumes.

5250 litres used oil per month, 63,000 litres per year

500 kgs of used oil filters per month, 6000 kgs per year

1000 litres of used antifreeze per month, 12000 litres per year.

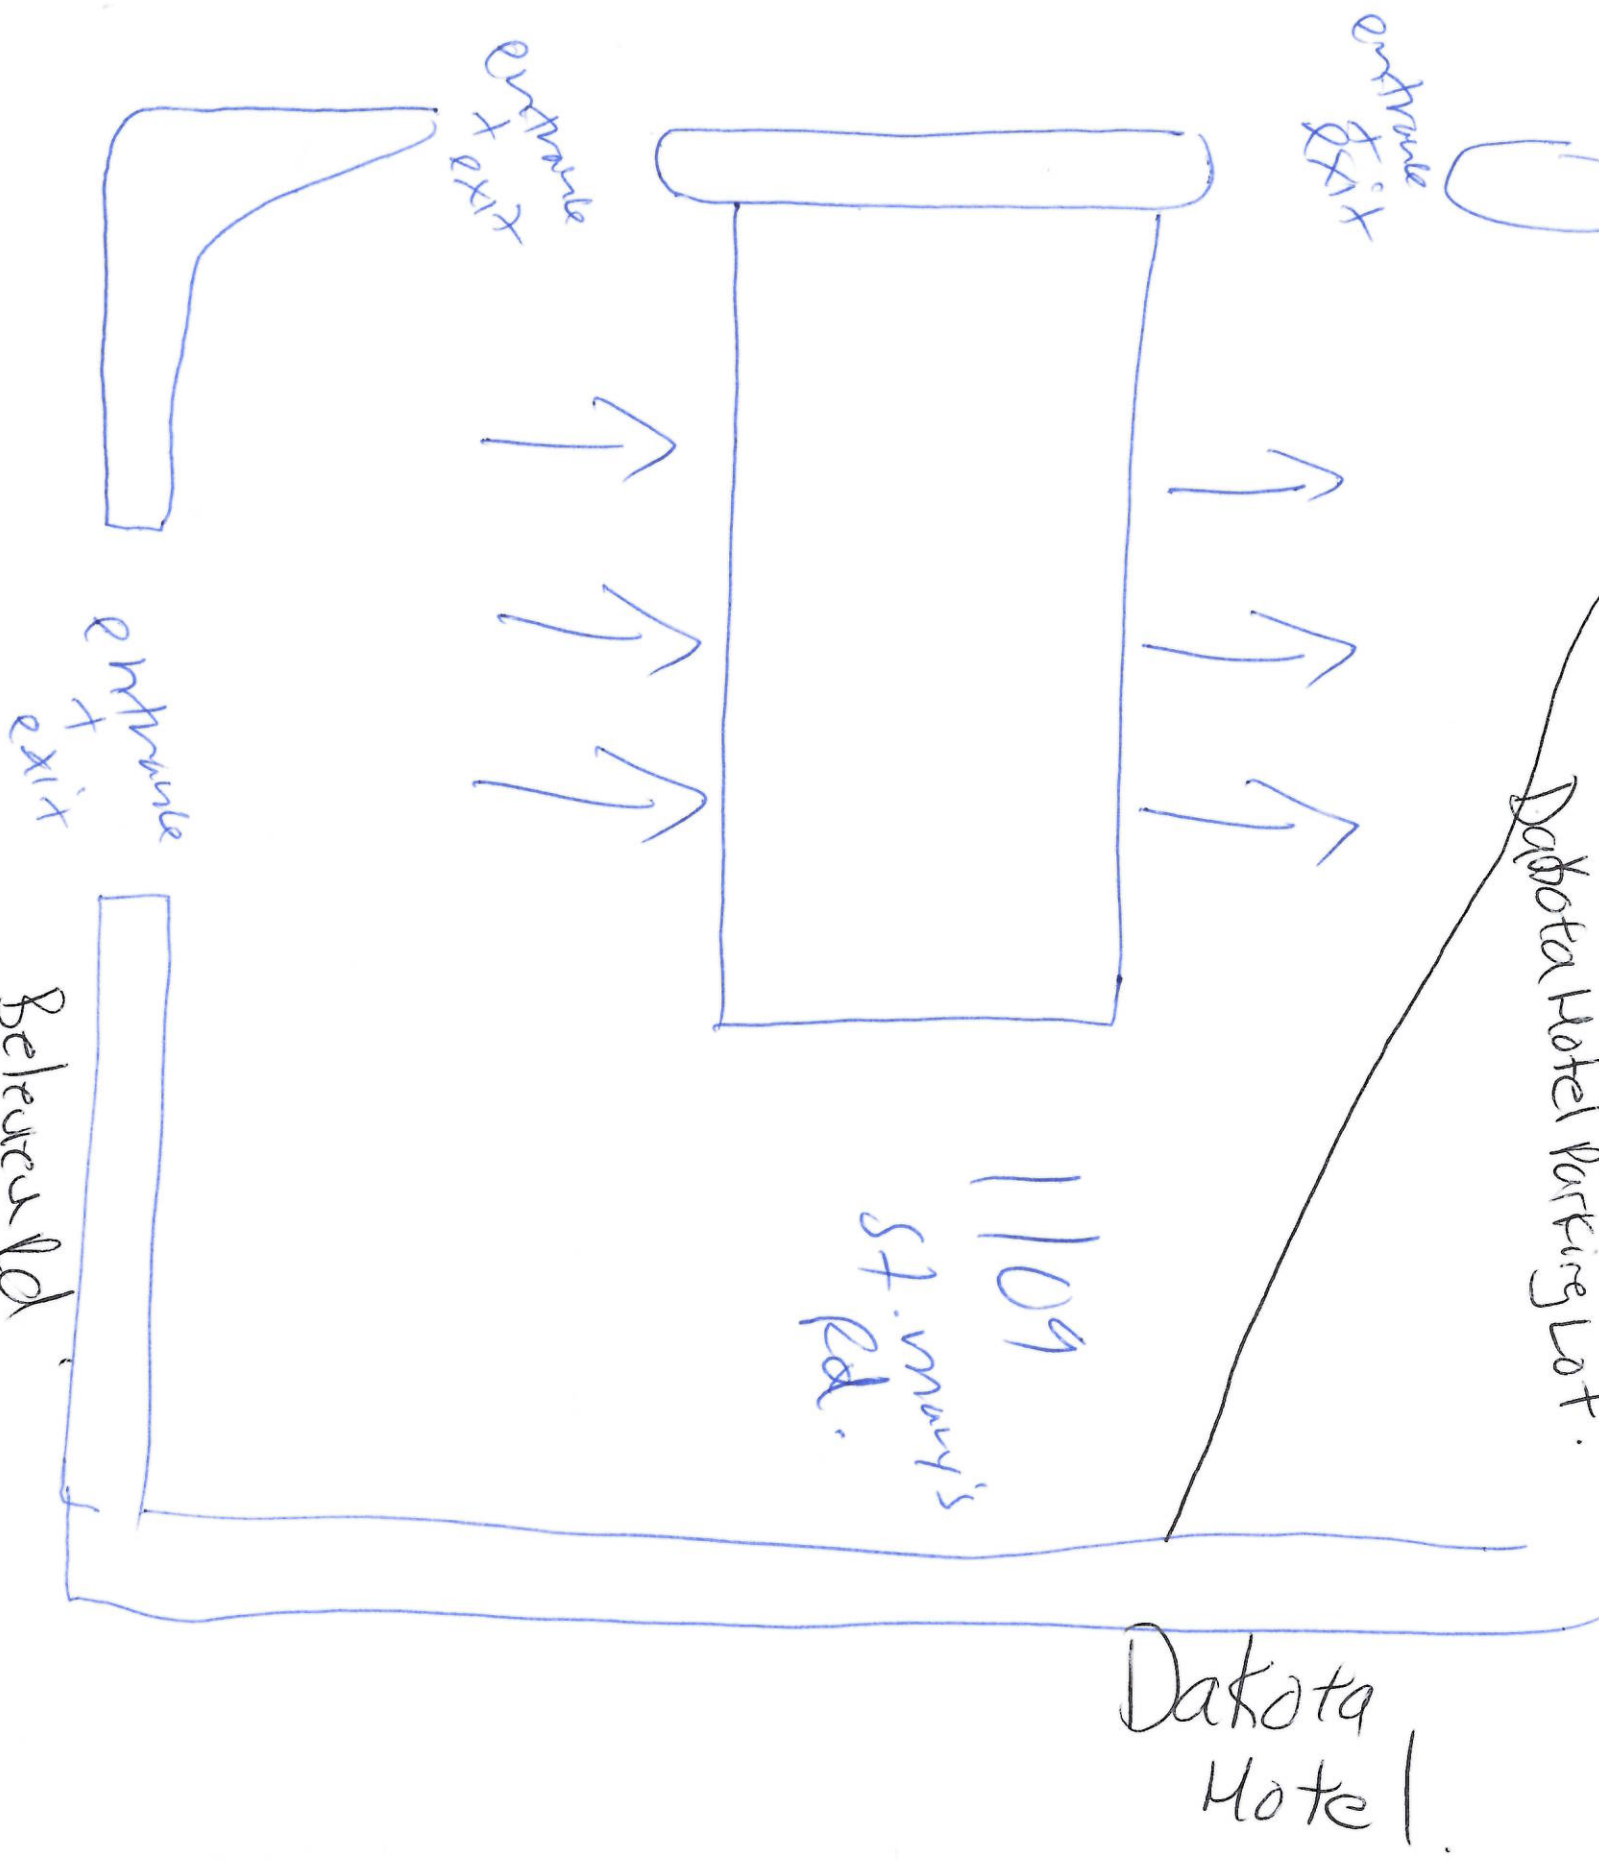

175 kgs of used oil & AF containers per month, 2100 kgs per year.
