Dear Norm Klippenstein:

Re: Recycle West Inc. – Dangerous Goods Handling and Transportation Act Licence No. 296 HW

This is in response to the April 16, 2020 Notice of Alteration (NoA) submission with respect to Dangerous Goods Handling and Transportation Act Licence No. 296 HW, issued on August 22, 2016 for the construction and operation of a hazardous waste collection and transfer facility.

The intent of the NoA request was to include the ability to receive, store, repack, consolidate, bulk, blend, process and ship non-hazardous waste solids, liquids and gases. The processing, collection and storage of non-hazardous waste is not a regulated activity and therefore an alteration is not required.

However, for clarification, Clause 16 of Dangerous Goods Handling and Transportation Act Licence No. 296 HW is amended as follows:

- The Licencee shall only use the Facility for receiving, storing, repacking, consolidating, bulking, blending, processing and shipping of hazardous and non-hazardous waste solids, liquids and gases.

All other clauses in The Dangerous Goods Handling and Transportation Act Licence No. 296 HW remain in effect.

Should you have any questions, concerning this approval, please contact Edwin Yazon, Environmental Engineer at Edwin.Yazon@gov.mb.ca or 204 485-6412.

Yours sincerely,
