**CONTAMINATED SOIL TREATMENT FACILITIES IN MANITOBA**

---

This is a list of licensed soil treatment facilities in Manitoba. Please note the following:

1. Environment and Climate makes no guarantee about the soil treatment facilities' operations.
2. Soil treatment facilities operate under licences and/or permits from Environment and Climate. Restrictions may be implemented regarding the types of soil the treatment facility may receive.
3. The proponent is required to contact the soil treatment facility in advance to determine if the facility can/will accept the soil.
4. In most cases, the soil treatment facility will require an analysis of the soil in advance. The proponent is required to send this to the soil treatment facility upon request.

For more information, please contact the Contaminated Sites Program at [ContaminatedSites@gov.mb.ca](mailto:ContaminatedSites@gov.mb.ca).
