

S.A.F.E. Family Program

Smoke Alarm For Every Family

Public Service Announcement Radio

In the interest of public safety, please announce the following important message whenever possible during your broadcast.

Only Working Smoke Alarms Save Lives!

Voice Over: Length 30 seconds

Has your smoke alarm ever gone off because you are cooking or taking a shower? No matter how annoying this is - **do not disable the smoke alarm.**

If you remove the battery or shut off the breaker to silence the alarm, you put your home and your family at serious risk if a fire occurs.

Instead, buy a smoke alarm with a button that will temporarily silence the alarm for several minutes. Or, try moving the alarm to a different location.

Remember, only *working* smoke alarms can save your life!

This *alarming* message is brought to you by _____
and this station.
